Swift - MySQL - Python - Java

Education:

Tulane University: BA - English (2015)

TEFL Certification

Life Skills:

Communication

Foraging

Customer Service

Shepherding

Detail Oriented

Microsoft Word

Experience

WEB DEVELOPMENT — March 2020 - Present

Xochis Apothecary

This is a WordPress website for my wife and my's side-business. I built the theme from scratch including built in Instagram integration, contact form, and custom Google Maps. I also utilized the plugins ACF and CPT UI to generate a custom post type for our products. And I made use of the Bootstrap and jQuery frameworks for productivity.

Red Lodge Senior Center

I built a WordPress website using Elementor for our local Senior center. I also maintain the website (updates, backups, performance/security enhancements) and take care of any hosting issues. While the bulk of this site was put together with 3rd party code, it does include custom CSS and a custom-built security plugin.

FARMERS MARKET VENDOR — 2017 - Present

Xochis Apothecary

My wife and I founded Xochis Apothecary in January 2017. Most of our business is at the local farmers markets, though we are slowly starting the transition to online sales. We sell tea, incense, salves/oils, and other random stuff my wife can create with herbs. My roles mainly include: ordering supplies, designing/printing labels, copywriting, foraging ingredients from the wild, and finances.

Online ESL — November 2019 - Present

VIPKid

I contract with VIPKid to teach English to Chinese students (age ~5-14) through an online learning app. Classes are short 25 min blocks and occur between 3:30 and 6 in the morning. Skills required include: communication, lesson preparation, grammatical knowledge, and, for the younger kids, improvisation.

Property Management — August 2019 - March 2020

W Ranch

This is a private vacation ranch I helped maintain. I worked under a supervisor for the bulk of this job, but, after he resigned, I assumed his role until the family moved back for the Spring/Summer. Duties included: light construction, landscaping, house maintenance, taking care of the animals, odd jobs generally.

Service Industry — Fall 2015 - Spring 2019

I've worked at a number of different restaurants in New Orleans and Red Lodge, MT. Roles included:

Kitchen Manager - Cook - Server - Baker - Prep
